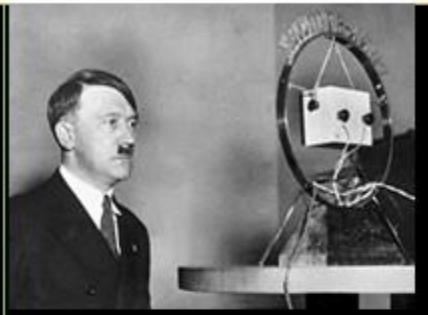
First sign: Attack the free word and media

I hate CNN.

Donald trump has shown his disgust for the media he doesn't like. He makes himself funny about the free word and the press. Some journalists have become harassed, purely verbal.



In Germany, cheap radios were manufactured so that the people could listen to the right message

In Nazi Germany (1933-1945) propaganda was used, among other things, to spread anti-Semitism (Judaism) and to emphasize the perfection of Nazism and Adolf Hitler. ... propaganda in order to convince the population that the regime's thoughts and ideas are the only right.

Internment of Japanese Americans
The internment of Japanese Americans in the United States during World War II was the forced relocation and incarceration in concentration camps in the western interior of the country of about 120,000 people of Japanese ancestry, most of whom lived on the Pacific Coast. Sixty-two percent of the internees were United States citizens. These actions were ordered by President Franklin D. Roosevelt shortly after Imperial Japan's attack on Pearl Harbor

Donald Trump wants to be a Dictator

The mistakes of the American people in 2024 it was also made in 1933 in Germany

The American people seem to resemble the German people in 1933. In Germany they elected a criminal who participated in a coup d'état in 1923 and he was sentenced to five years in prison, but was released within a year. His party was for violence, murder, racism and dictatorship. Hitler received more than 33% of the votes of the German people. Then he got power and in 1933 he had steered Germany towards a disaster and also the World. Number of dead approximately 60 million. Persecution and killing of Jews, the disabled, dissidents, political opponents. The Storming of the Capitol was a riot that took place on January 6, 2021 in Washington, D.C. in the United States, when supporters of the then sitting US President Donald Trump stormed the US Congress building. Hitler arranged for the German Reichstag to be burned down and they had a ready-made scapegoat to blame. Democracy was also burnt to ashes. Donald Trump's chief of staff has stated that Donald Trump can be classified as a Fascist. The question is why the American people are close to repeating the same disastrous choice that the German people made in 1933?

Donald Trump amassed a somewhat similar resume in terms of attempting to disrupt Democracy (2021 storming of the Capitol) and without the encouragement and passivity of Trump, the casualties would not have happened. The storm hadn't happened.) The American people have shown that there is a risk that they will also become the voice generator of shame. The plan now becomes for Trump to give Ukraine away to Russia. Blackmail NATO EU countries with reduced US contributions if they do not follow his plans.

The US's most shameful electorate voted for Donald Trump and in Germany Germany's most shameful electorate voted for Adolf Hitler

Echoes of the Past: A Comparative Analysis of Trump's Rhetoric and 1930s Dictatorship

Germany got its shameful electorate in 1933 and the US got its in 2016 and may get more in that category in 2024. Voting for Donald Trump is shameful and can be compared to the mistakes of the German electorate.

Donald Trump is the most dangerous President the United States has ever had. He ***wants to be Dictator for a day*** (self stated) He ***has denied his loss as President*** despite a proven loss. He is now making a statement to again deny a result that would mean an election loss. He is clearly opposed to leading a Domocracy.

He admires Dictators and ***seems to dream of becoming a Dictator of the United States***

DICTATOR FOR ONE DAY

A Danger

Donald Trump

Donald Trump was analyzed as a person, and by a large number of Psychoanalysts in 2015, and they wrote an open letter about it, and books came out. Trump was suspected of having multiple disorders and Paranoia and God complex. Conclusion in 2015, dangerous for the US if he were to become President.

The price for the United States and the rest of the world with the most dangerous President in power, as he is Donald Trump, has not yet been fully revealed. He probably has, among all Presidents, the worst condition to manage his office as it is intended.

Already during his first four years, he has shown an unprecedented incompetence and lack of knowledge and empathy. He has been revealed by witnesses to be uninterested in the security of the United States (Witnesses from Homeland Security officials). The lack of empathy is shown with the plan to separate the children from their families in immigration detention and from Mexico (the plan is against convention and creates suffering). California is a state where Donald Trump lacks support and revenge was an attempt to stop compensation for the large wildfires that ravaged (Homeland Security witnesses have recorded their testimony that was broadcast in 2024.)

No Sigmund, I have no mental problems whatsoever, neither delusions of grandeur, nor paranoia

Donald Trump och Psykologernas Förutsägelser: En Djupdykning i Effekterna av hans Psykologiska Profil på Presidentämbetet

Analysrapport: Donald Trumps mentala hälsa och potentiella påverkan på USA:s säkerhet

Bakgrund och tidigare oro

År 2015 uttryckte en grupp på 27 psykologer allvarlig oro över Donald Trumps mentala hälsa och dess möjliga konsekvenser för USA:s säkerhet. De identifierade symtom som paranoia, gudskomplex och storhetsvansinne, vilka de ansåg kunde utgöra riskfaktorer om Trump skulle bli president.

Symptom och deras manifestation under Trumps presidentskap

Under sin tid i Vita huset uppvisade Donald Trump beteenden som enligt vissa experter bekräftade de initiala farhågorna. Bland annat hans tendens att förvränga verkligheten och hans aggressiva reaktioner mot kritiker har tolkats som tecken på de nämnda psykologiska tillstånden.

Gaslighting är en form av psykologisk manipulation som får någon att tvivla på deras upplevelse av verkligheten. Genom konsekvent lögn, felriktning och motsägelse försöker gaslightern att delegitimera offrets tro genom att förvirra och destabilisera dem. Detta kan leda till att offret tvivlar på deras minne, uppfattning och ibland till och med förnuft.

President Trump har ljugit fräck mot allmänheten under hela sin mandatperiod. Tidiga exempel inkluderar att han hade den största publiken inför invigningsdagen trots fotografiska bevis och avfärdat ryska inblandningar i 2016 års val som "falska nyheter" trots enighet från amerikanska underrättelsetjänster. Trumps frekventa och djärva lögner och hans konsekventa försök att undergräva människors uppfattning om sanning har lett till att vissa har karakteriserat Trumps beteende som gasbelysning.

The Dangerous Case of Donald Trump is a 2017 book edited by Bandy X. Lee, a forensic psychiatrist, containing essays from 27 psychiatrists, psychologists, and other mental health professionals describing the "clear and present danger" that US President Donald Trump's mental health poses to the "nation and individual well being"

Forskning tyder på att stöd för president Trump kan vara förknippat med en preferens för auktoritärism, en preferens för grupphierarkier i samhället, mindre kontakt med människor utanför gruppens grupp och känsla av deprivation i förhållande till andra.

Över 27 psykologer i USA har skrivit under på ett upprop, Där man varnar för Donald Trumps mentala hälsa gör honom olämplig att sköta sitt uppdrag.
